Marathon, FL 33050

### Public Reporting Burden

The information requested in these guidelines is necessary to evaluate whether issuance of a permit is appropriate. The information is used to evaluate the potential benefits of the activity, to determine whether the proposed methods will achieve the proposed results, and to evaluate any possible detrimental environmental impacts. It is through this evaluation and the tracking of all otherwise prohibited activities that the NMSP is able to use permitting as one of the management tools to protect Sanctuary resources and qualities. Submittal of the information requested in these guidelines is required to obtain a permit pursuant to National Marine Sanctuary Regulations (15 CFR part 922). NOAA will make all possible attempt to protect any proprietary business information that is marked as confidential, consistent with applicable Freedom of Information Act (FOIA) law, should any FOIA request be made.

Public reporting burden for this collection of information is estimated to average one (1) hour per response (application, cruise log, and final report), including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Permit Coordinator, NOAA Office of National Marine Sanctuaries, 1305 East-West Highway, 11th Floor, Silver Spring, MD 20910.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
